Prioritizing Pet & Child Safety

Protect your pup with a swimming pool safety fence!

-An estimated 5,000 dogs drown each year, a very sad & unfortunately REAL statistic.

- Many people are unaware that ALL bulldog breeds are extremely vulnerable to accidental drowning!

-Many breeds do not naturally float. They are heavy bodied or their heads are heavy. Their legs are generally short and ineffective at doggy-paddling & breathing is an issue. They drown quickly, or cannot find the step to climb out . You can see your dog fall in the pool from 20 yards away, run as fast as you can, jump in with all your clothes on, swim to the bottom of the pool and bring him up to the surface in less than a minute, and still lose him. Why would you risk it?

Our patented "pet safe" mesh is tear proof & holds a lifetime guarantee & our fences take 15 minutes to remove or assemble.

At the end of the day, our pool safety fencing can protect against unauthorized access to your pool area, keeping your loved ones and pets safe from accidents. Whether you have young children, grandchildren, or pets, safety is our goal - to protect your entire family.

What's Included

- Strongest Mesh Pool Fence In The Industry, able to withstand all weather conditions
- Removable or Permanent
- State of the art, rust-proof "MAGNA-LATCH" automatic locking & self closing gate (which requires two adult hands to open & features a keylock for added safety.)
- Impossible to climb, absolutely NO footholds.
- Smallest footprint available on the market (the drilled hole itself being no larger than the circumference of a dime).
- Steel reinforced poles, (NOT "THE STANDARD ALUMINUM") the stress section of our PSF system contains a stainless steel core, allowing for superior strength while remaining lightweight.)
- Meets ASTM International Quality Standards
- Lifetime Warranty

Proper pool fencing can prevent young children & animals from gaining access to the pool area without a caregivers' awareness. A four-sided isolation fence which separates the pool area from the house and yard reduces a child's risk of drowning by nearly 90% ! We at PSF will prioritize your family's safety by personally installing the safest premium materials available on the market with a lifetime guarantee!

About us

Pool Safety Fence was started by Adam Wanner, an Army Veteran & family-man from Edmond, Oklahoma. After the fatal drowning of a close friend's child, Adam has made it his mission to not only personally install every gate himself, but to also offer premium quality safety gates at the most affordable rate in the State of Oklahoma! For Adam, it is a question of spreading awareness & protecting his community's children by providing the most reliable pool safety fence available.
